Shell Log Home

Shell Materials Only =

\$70 x Main Floor & Loft Sq. Ft.

Shell Materials + Labor =

\$90 x Main Floor & Loft Sq. Ft.

- » Blueprints
- » Wood I Joist floor system
- » 8 inch pine, tongue and groove logs
- » Insulation gasket between logs
- » Nails and spikes
- » Steel, exterior doors & hardware
- » Interior stud walls, no covering
- » Stairways (no railings)
- » Un-insulated roof system with 30 year shingles
- » Low-E Marvin insulated clad windows
- » Exterior trim, soffits, and cedar fascia
- » Caulk
- » Labor (optional)

This package is designed to give buyers a finished home as viewed from the exterior, however, unfinished on the interior.

Finished Basement Is The Best Buy

Basement finishing may very well be the least expensive way to expand your finished living area, at a very moderate cost of \$50.00 per square foot, and will match the upper level. With most basement walls being 8 ft. in height, with enlarged windows, you will have a very comfortable atmosphere - including much privacy. A walkout basement, where adaptable, will also add to further convenience and enjoyment.

Logs Only

Logs Only =

\$150 x Total Outside Perimeter

Logs & Log Labor =

\$205 x Total Outside Perimeter

- » Cut sheets
- » 8 foot sidewalls with 8 inch pine, tongue and groove logs
- » 10 inch spikes
- » Insulation gasket between logs

PLEASE NOTE THE FOLLOWING

Pricing Information:

- » Each home is priced on an individual basis.
- » The package examples are suggestions and can be adjusted in any way.
- » Formulas can be applied to plans that are 1500 square feet or more.
- » Plans less than 1500 square feet are custom priced.

Conventional construction quote available upon request
